

October Kennedy Tank Talk

Morning Team,

Welcome to October's edition of Kennedy Tank Talk! Below and attached are a couple updates from your friends at Kennedy Tank.

Stainless Steel Building Video

Check out the attached video of our Operations manager (Bill Kennedy) giving a tour of our current stainless-steel building. Our bay 8 building was built to increase Kennedy Tank's capabilities in building larger diameter (up to 15'), heavy tanks and vessels (with 60,000 pounds of overhead cranes).

Pat Kennedy and Team Honored in Lifetime Achievement Award For former Indy 500 Driver

Pat Kennedy and master mechanic on the Kennedy Tank Special, Bill Yazel took the car to Madison, Indiana the weekend of September 23rd, 2017. Madison hosted the second annual Vintage Hydroplane Race.

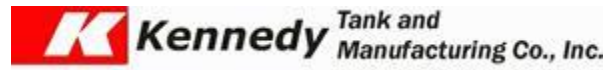

Bill Cantrell, who drove the Kennedy Tank Special in the 1949 Indianapolis 500 and also won the coveted Gold Cup for hydroplane racing the same year, was honored with a Lifetime Achievement Award.

Pat Kennedy was very honored to receive this award for Bill Cantrell who passed away in 1996 at the age of eight-seven.

End of Year Push!

As we all know, typically during the end of the year push there are vessels that need to be delivered before January 1st. We are here to tell you that we have available capacity in the shop and are pricing heat exchangers, pressure vessels, and tanks aggressively to win your business! Let us know if you have projects that we can competitively bid!

Jimmy Kennedy
