

June's Kennedy Tank Talk

Team,

Welcome to June's edition of Kennedy Tank Talk. Below you will find some updates for the month!

- **Shop X-Ray Record for 2017!**

- It is official! Our quality control team along with our ASME certified welders set a Kennedy Tank record passing approximately 96% of the over 3,000 X-rays taken in 2017!
- Our quality control team (pictured below) averages over 20 years of experience at Kennedy Tank and includes in house Certified Welding Inspectors, Radiographic Inspectors and a NACE Level 2 inspector.

- **Welcome Beau Bemis to the Kennedy Tank Team!**

- Beau grew up in Bargserville, IN and graduated from Indiana University Kelly School of Business with a degree in Entrepreneurship and Management. Since then he has worked for his father's real estate company (Bemis Group), Fastenal Company, and Remagen Foodservice Solutions (commercial food equipment). We are very excited to have Beau on the team moving forward!

- **Exotic alloys for Heat Exchangers on the rise!**

- We have recently seen an uptick in Inconel, Monel, Copper Nickel, and Hastelloy heat exchangers being fabricated in our shop. With a total of over 70 years' experience of engineering exchangers, we are the go to fabricator for shell and tube heat exchangers!
