

### April's Edition of Kennedy Tank Talk

Team,

Thank you for reading this month's version of Kennedy Tank talk. Please read below for some updates from our team!

- **Kennedy Tank Family Night!**

- Thank you to our production team for bringing the Kennedy Tank family night idea to fruition. On April 6, we had over 150 family members visit our shop to share a meal, shop tours, and even try both stick and mig welding on two state of the art Lincoln welding simulators!

- **In need of a shell and tube heat exchanger over 5' diameter??**

- Congrats to the team on recently fabricating this large heat exchanger! Project finished on time and under budget and consisted of over 2,000 welded tubes and was well over 50' long!

- **Kennedy Tank teammate awarded honor at the 26<sup>th</sup> annual CCS (Coalition of Construction Safety) award dinner!**
  - Congrats to **Kenny Becknell** who was nominated for Kennedy Tank's Craftsperson of the year!

We do have available capacity and can help with all fast track projects. Please give us a call if we can be of any assistance!
