

June's Edition of Kennedy Tank Talk

Team,

Thank you for reading this month's version of Kennedy Tank Talk. Please read below for some updates from the Kennedy team.

- **Kennedy Tank continues to churn out heavy, large diameter, and thick ASME vessels!**
 - This vessel was 40,000 gallons and 1.5" thick weighing nearly 150,000 pounds. Really nice effort by the entire Kennedy Tank team on this recent project.

- **The Kennedy Tank team delivers for a customer in need!**
 - Recently, one of the largest chemical plants in the Midwest came to us in need of a shell replacement on one of the most critical reboilers in their entire plant. This reboiler was nearly 5'5" diameter and 30' long with duplex cladding.
 - "The entire Kennedy team was "all in" and a pleasure to work with. In 19 days we worked as a cohesive team to design, procure, build, test and ship a unit. Engineering, Procurement, Fabrication, Safety, Field Services all performed extremely well against a schedule that was extremely challenging. I would not hesitate to use Kennedy in the future, please pass on my gratitude to all the guys in the office as well as the shop. The reboiler has started up without issues".

- **Congrats to these Kennedy Tank legends who celebrated 15+ years of service this summer!**
 - Dave Muse: 19 years
 - Steve Mcguire: 15 years
 - Pat Kennedy: 41 years
 - Tim Noyes: 18 years
 - Frank Baldrige: 22 years (STAFCO)
 - Dave Higdon: 24 years (Southern Tank)
 - Jerrell Clark: 34 years
 - Andy Garcia: 20 years (STAFCO)
 - Phil Higdon: 33 years (Southern Tank)
 - Jody Fesler: 22 years
 - Jimmy Ross: 32 years
 - Jay Armstrong: 30 years
 - Rick Walk: 21 years
 - Charlie Brown: 21 years (Southern Tank)
 - Ricky Brown: 28 years
 - Jeff Schalk: 21 years
 - Gabe Hamm: 15 years
 - Charlie Mackey: 42 years (Southern Tank)
 - Jerry Logsdon: 27 years
 - Jim Dossman: 27 years

- **Available Capacity!**
 - **We do have room for fast track projects in our schedule! ASME vessels, API 650 tanks, UI 142 single and double wall tanks, shell and tube heat exchangers, or field erected tanks, Kennedy is here to help!**
