

Shop-Fabricated Pressure Vessel Winner Kennedy Tank & Mfg. Co. Inc.

Steel Tank Institute's shop fabricated pressure vessel of the year award!

Last week Kennedy Tank received the shop fabricated pressure vessel of the year award through the Steel Tank Institute at their annual meeting. The winning photo is pictured above. We would love the chance to quote your next ASME pressure vessel project!

Kennedy Tank receives the 2019 Indianapolis Business Journal's Fastest Growing Companies Award!

The Kennedy Tank team was honored last week by being selected as one of the fastest growing companies in Indianapolis. Many thanks to all past and present Kennedy Tank teammates and all of our customers for helping make this happen.

3,000+ tube heat exchanger!

This TEMA Exchanger is currently in our segregated stainless steel building and will weigh north of 100,000 pounds by the time we ship this unit.

Kennedy Tank will come to you!

Want to learn more about how Kennedy fabricates and designs tanks, vessels, and heat exchangers?

We are willing to come to your facility and discuss the entire production process. From estimating, engineering, production, quality control, and much more.
