

May's Edition of Kennedy Tank Talk

Team,
Thank you for reading this month's version of Kennedy Tank Talk. Please read below for updates from the Kennedy Tank Team.

Bill Kennedy Announced as Fifth Generation President!

Bill is a six-year executive within the Kennedy family of companies and will now oversee Kennedy Tank, STAFCO, and Southern Tank.

Bill joined Kennedy Tank and Manufacturing in 2014, and throughout his tenure has held progressive roles in operations, most recently serving as Vice President of Manufacturing. Under Bill and the team's leadership, investments have been made in technology and equipment, creating operational efficiencies that helped us achieve a 57% top line revenue growth over the past four years. Bill succeeds his father, the late Pat Kennedy, who led significant growth across the portfolio of companies during his 25-years as President.

Please join us in welcoming Bill to this new role. We know dad would be proud!

Kennedy Tank Wins STI Safety Awards

Earlier this month, the Steel Tank Institute awarded Kennedy Tank with the **2019 Safety Award of Achievement** and our field division with the **2019 Safety Award of Excellence**.

We would like to give a special shout out to Greg Anderson, Environmental & Safety Director and all Kennedy Tank Teammates who continue to take a proactive safety first approach to their everyday lives!

Kennedy Tank Special

Although there was not a race on Sunday, we still took the Kennedy Tank Special out of the office to pay respect to the greatest spectacle in racing.

The Kennedy Tank Special raced in the Indianapolis 500 from 1936 to 1952. Its best finish was 8th place in the 1936 Indy 500 with George Barringer as the driver.

In 2012, Pat Kennedy had the Kennedy Tank Special restored and since then has driven the car every Indy 500 weekend. He was known to get the car over 120 miles per hour on carb day!

Field Erected Tank Availability!!

Our field erected tank crews are currently finishing up three large projects in Nebraska, Indiana, and Michigan. We are available and would look forward to quoting your next field erected tank or repair need!

Kennedy Tank has been deemed an essential business and remains open and in production. We are continuing to practice proper hygiene and social distance while most of our office staff works from home.

Please let us know if we can quote your next vessel, heat exchanger, or tank, or field erected tank project!

Sincerely,

Jim Kennedy: Jkennedy@kennedytank.com, 317-780-3523

Tim Noyes: Tnoyes@kennedytank.com, 317-780-3526

Jim Dossman: Jdossman@kennedytank.com, 317-780-3554

Paul Bolin: Pbolin@kennedytank.com, 317-780-3528
