

September's Edition of Kennedy Tank Talk

Thank you for reading this month's version of Kennedy Tank Talk. See below for updates from the Kennedy Tank Team.

2020 Davi Plate Roll Installed

Earlier this month we installed our new **2020 CNC Davi plate roll** that now allows us to roll up to 1" thick and 10' wide. We have already noticed a huge improvement in the accuracy and efficiency we are now capable of rolling due to this investment. Congrats to all involved in this major improvement for our shop!

Massive Shell and Tube Heat Exchanger Trivia!

Congratulations to **Jim Stokes** of Brighton who won this month's trivia by guessing the closest number of tubes on this massive condenser built by Kennedy Tank in 1997! This unit was 78" diameter and had 4,988 tubes. Pictured below are **JD Smith** and **Dave Shadiow** who still lead our heat exchanger department and have 67 years of experience engineering and fabricating shell and tube heat exchangers for Kennedy Tank!

PWK Memorial Golf Outing

Last Saturday we had the largest turnout to date for the Kennedy Tank PWK Memorial Golf Outing. Over 50 Kennedy Tank teammates took part in the event which was an absolute blast. Thank you to our commissioner **Brian Lundsford** for organizing this great event!

We also want to congratulate **Kevin Bolin, Alexis McAdams, Kent Hopkins, and Jason Shaw**, who took home the trophy by finishing six under par. Also, congrats to **Scot Evans** for winning the coveted most improved award and **Joe Andree** for winning the mental attitude award. Well done!

Employee Spotlight: Craig Killebrew

This month's employee spotlight goes to our IT manager, **Craig Killebrew**. Craig has worked at Kennedy Tank for six years and is one of the most helpful, knowledgeable, and kind IT managers in the country. Craig served 23 years in the Army and is from Indianapolis, IN. Craig is known around the office as one of the key teammates that allow us all to stay as productive as possible during the workweek. Thank you for all that you do Craig!

The Kennedy Tank team consistently rises to the challenge on all complex vessels, tanks, and heat exchangers and would love to help you with your next critical project!

Kennedy Tank has been deemed an essential business and remains open and in production. We are continuing to practice proper hygiene and social distance while most of our office staff works from home.

Please let us know if we can quote your next vessel, heat exchanger, or tank, or field erected tank project!

Sincerely,

Jim Kennedy: Jkennedy@kennedytank.com, 317-780-3523

Tim Noyes: Tnoyes@kennedytank.com, 317-780-3526

Jim Dossman: Jdossman@kennedytank.com, 317-780-3554

Paul Bolin: Pbolin@kennedytank.com, 317-780-3528
