

## October's Edition of Kennedy Tank Talk

Team,  
Thank you for reading October's version of Kennedy Tank Talk. Read below for updates from the Kennedy Tank Team.

### 2020 Pantheon Sub Arc Purchased!

We recently purchased a mini pantheon-HD Manipulator to allow us to weld thick vessels 6' diameter and under more efficiently with higher quality! This pantheon is mobile and will allow us to move seamlessly from our stainless steel building to our largest bay in the main shop. **Dawson Conley** showcased below has passed 100% of his x-rays while running the pantheon. Also wanted to thank **Danny Carmin** for training teammates on how to run this machine. Nice work team!

### Kennedy Tank Team Launches Annual United Way Program

October marks the 20th year the Kennedy Tank team has participated in the annual United Way charity program. Unfortunately, this year due to the pandemic, we will not be holding events such as corn hole, grill outs, and chili potluck lunches, but we will get creative in finding ways to donate to people in need and also stay as safe as possible.

Thank you to **Bridget Saylor** for organizing this effort!

### Employee Spotlight: Kenny Dausch

We all want to congratulate **Kenny Dausch** on his retirement from Kennedy Tank. **Kenny** joined Kennedy Tanks field division in 2004 and is known throughout the boilermaker industry as one of the hardest workers in the country. **Kenny** helped build the culture of our field division by being a total team player and willing to do whatever it takes to ensure a successful project. **Kenny** was always the first person on the job and the last to leave. Thank you **Kenny** for being a great American and teammate!

### What sets Kennedy Tank apart from our competition?

Kennedy Tank has continued to be a leading pressure vessel and tank fabricator as well as maintenance and repair company thanks to the dedicated teammates who always go the extra mile and are willing to work together to come to solutions to improve our customer's business. During these crazy times, we want to say THANK YOU, to everyone working on the Kennedy Tank Team!

## Field Erected Tank Availability!

Shown below are **Bill Kennedy** (President), **Gerry Hemmelgarn** (CFO), and **James Cain** (field-erected tank foreman). James is one of the best Boilermakers in the world and brings industry-leading fabrication experience to all projects he is involved in. He is currently on-site working in the Midwest building dozens of 100,000-gallon stainless steel API 650 tanks. Our field-erected tank crews are hungry to earn your business and show why Kennedy Tank leads the Midwest in field-erected tanks!

**Kennedy Tank has been deemed an essential business and remains open and in production. We are continuing to practice proper hygiene and social distance while most of our office staff works from home.**

**Please let us know if we can quote your next vessel, heat exchanger, or tank, or field erected tank project!**

Sincerely,

**Jim Kennedy:** [Jkennedy@kennedytank.com](mailto:Jkennedy@kennedytank.com), 317-780-3523
