

November's Edition of Kennedy Tank Talk

Team,

Thank you for reading November's version of Kennedy Tank Talk. Read below for updates from the Kennedy Tank Team.

30 ton dual hoist crane added to our largest bay!

In November we added a 30-ton dual hoist crane to our largest bay which enables us to safely build vessels up to 150,000 pounds and also gives us the ability to flip large diameter and thick dished heads as well as rectangular vessels. We continue to up our capacity in fabricating larger, more complex tanks and vessels.

Rush heat exchanger shipped on time!

The Kennedy Tank team recently rose to the challenge in building this BEU 27-72 heat exchanger for an ethanol plant in the Midwest with an expedited schedule to help a customer during a shutdown. Well done by all involved!

2020 United Way Charity!

This year we have designed a Kennedy Tank United Way tee shirt in memory of our late President, Pat Kennedy. Dad thought the world of the United Way and was one of the key reasons we have worked with the United Way for 20+ years.

So far Kennedy Tank teammates have purchased over 90 shirts! We have all made it our goal in "Continuing Pat's Legacy" by helping those in need during the holiday season.

Thank you to Bridget Saylor for coordinating this fundraiser.

Employee Spotlight: Vince Easler

Vince has been the field shop operations supervisor since 2014 and has modernized the way we control our warehouse of consumables, tools, and equipment for our busy field operations around the region. Some of Vince's key accomplishments include a newly implemented inventory control process and ensured safe equipment functionality. He has also overseen all our fleet maintenance and delivery logistics to all of our job sites.

Thank you for all that you do Vince!

Let us put our 122 years of experience to work on your next complex vessel, tank, or heat exchanger!

Kennedy Tank has been deemed an essential business and remains open and in production. We are continuing to practice proper hygiene and social distance while most of our office staff works from home.

Please let us know if we can quote your next vessel, heat exchanger, or tank, or field erected tank project!

Sincerely,

Jim Kennedy: Jkennedy@kennedytank.com, 317-780-3523

Tim Noyes: Tnoyes@kennedytank.com, 317-780-3526

Jim Dossman: Jdossman@kennedytank.com, 317-780-3554

Paul Bolin: Pbolin@kennedytank.com, 317-780-3528
