

FABRICATED PRODUCT OF THE YEAR
PRESSURE VESSEL

Fabricator

KENNEDY TANK & MANUFACTURING CO

In 2021 the Kennedy Tank team built a final cooler vessel for a steel mill in the Midwest that was 84" ID X 39'-11" tangent length made of SA516-70 carbon steel. This vessel was designed to ASME section VIII for +3 PSIG @ 150 degrees F with a .125 corrosion allowance.
