

The January Edition of Kennedy Tank Talk

Team,

Thank you for reading the January edition of Kennedy Tank Talk. Please see below to learn about exciting updates from the Kennedy Tank Team.

New Field Fabrication Building Making Strides

We are under construction of a new state-of-the-art repair and fabrication space that will be available in only a few months for our client's projects.

Our new Field Services shop will bring 5,000 square feet of dedicated space for quick turnaround tank and pressure vessel repairs, pre-fabrication, heat exchanger retubes and repairs, and mechanical piping fabrication.

With dual 10-ton overhead cranes, no project will be too large for our Field Services shop to handle.

Building Tanks in Tight Spaces

We love erected both big and small and can be of assistance on tanks located in tight spaces that need to be demolished and erected which is happening in the picture to the left of this text.

Kennedy Tank Holiday Party

Earlier this month, we had our all-company holiday party at Punch Bowl Social in downtown Indianapolis.

It was very well attended and we all enjoyed spending time with each other outside of our manufacturing facility.

Heavy Wall Pressure Vessel Project

This week we shipped the fourth and final heavy wall air receiver out west to the great town of Las Vegas, Nevada.

These were 22,500-gallon vessels that were 10' diameter 35' tangent with 3/4" thick shell plate and a mix of spot and full x-ray.

These were fully painted and blasted by our industry-leading coatings team.

Another great project and effort by the Kennedy Tank team.

Your Go To Source for Field Erected Tanks

Our field-erected tank experience dates all the way back to 1970 and today we have several dedicated crews who travel the country erecting tanks up to 300' diameter.

Please reach out if we can be of assistance on your next tank, vessel, heat exchanger, field-erected tank, or repair project!

Sincerely,

Jim Kennedy: Jkennedy@kennedytank.com, 317-780-3523

Tim Noyes: Tnoyes@kennedytank.com, 317-780-3526

Jim Dossman: Jdossman@kennedytank.com, 317-780-3554

Paul Bolin: Pbolin@kennedytank.com, 317-780-3528
