

## The April Edition of Kennedy Tank Talk

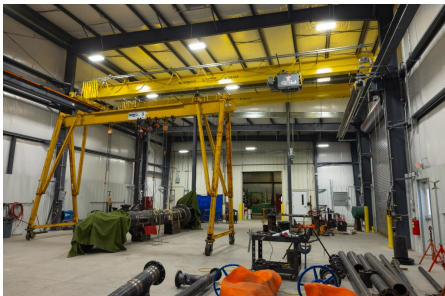

Team,

Thank you for reading the April edition of Kennedy Tank Talk. Please see below to learn about exciting updates from the Kennedy Tank Team.

### Ribbon Cutting Ceremony

The ribbon-cutting ceremony for our new 5,000-square-foot field fabrication building is now complete and we have started several piping, heat exchanger repair, and tank repair projects.

**Bill Kennedy** and **Dave Reinkemeyer** showcased below led the efforts in making sure this project was a huge success. Thank you to all past and present Kennedy Tank teammates who made this project a possibility.

(2) 10-ton cranes will help ensure safety is a key priority in this new building.

With 25 acres of land on our property, we still have ample room for storing materials and future expansion projects.

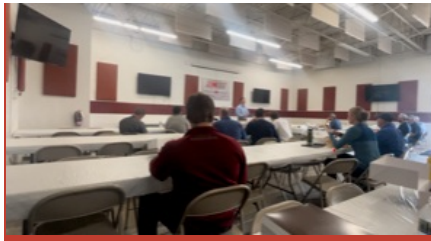

## Welcome Melanie Komasinski!

We would all like to Welcome **Melanie Komasinski** to Kennedy Tank as our new safety and environmental manager.

Melanie brings industry experience and has already made an impact in her short time here at Kennedy Tank. We look forward to seeing how she continues to grow our safety culture. Welcome Melanie!

## Kennedy Tank 2023 Walking Challenge begins!

This year we had our largest turnout with 32 teammates participating in this six-week challenge. We are off to a great start and are excited to see which team wins this competitive challenge.

## Large Diameter Shop Built API 650 tanks

The team had flawless execution on this 13-foot diameter API 650 tank made of 316 stainless steel. Our customer visited three times and was satisfied with our effort and commitment to quality on this project.

We can build API 650 tanks up to 15' diameter and 60,000 gallons in our manufacturing shop.

Please reach out to any of your Kennedy Tank representatives if we can be of assistance on pressure vessels, tanks, heat exchangers, field-erected tanks, and much more.

Sincerely,
